## Board of Control

The Board of Control is composed of the officers and sponsor of the Student Association, and the chairmen of the various councils. The purpose of the association is to develop co-operation among the students in all lines of activity, with the main purpose of bettering our school. With faculty guidance, many school affairs are turned over to this group to handle. This year class presidents were invited to attend the meetings of the home room representatives.

In addition to the projects established in previous years, the board has this year centered its work on citizenship and the care of the new building.

Gros Ventre is a chapter of the Honorary Society of Secondary Schools of America. Its purpose is to encourage scholarship, character, leadership and service.

Not more than fifteen per cent of the graduating class may be elected, and these must be chosen from the students ranking in the upper twenty-five per cent of the class in scholarship. Election is made by a faculty committee, and pins are awarded on which are symbolized the qualities for which the society stands.

To encourage scholarship, our chapter awards, each year, a pin to the girl and to the boy having the highest grades in the freshman class.

## Track Squad

Rock Springs scheduled and participated in more track meets this year than ever before. In the meets that have been held, the Tigers have won by substantial margins. Interest has been stimulated in track and field to the extent that at present we have a larger squad than ever before. A great many of the boys practicing regularly are underclassmen, and if these boys maintain the same interest in track, the schedule in future years will be just as large or perhaps larger, and Rock Springs will soon begin to assert the true Tiger strength in this sport.
